

TAKE THE BEST PICTURES WITH YOUR CAMERA

According to Kodak, America's iconic photography brand, there are a few simple tips that can turn an ordinary photo into an extraordinary one. For the very best photos, they suggest:

1. LOOK YOUR SUBJECT IN THE EYE

2. USE A PLAIN BACKGROUND

3. USE FLASH OUTDOORS

4. MOVE IN CLOSE

5. MOVE IT FROM THE MIDDLE

6. LOCK THE FOCUS

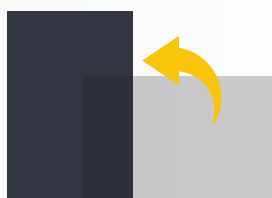

7. KNOW YOUR FLASH RANGE

8. WATCH THE LIGHT

9. TAKE SOME VERTICAL PICTURES

10. BE A DIRECTOR

In addition to these tips, many "taking good photos" bloggers suggest shooting from the ground level (ant's eye view) to create drama, finding framing elements (archways, doors, etc.) that emphasize your subject(s), and trying moodier lighting.

And, since digital images can be deleted almost as quickly as they are taken, shooting more always gives you more choices.
